Get rewarded once a Quarter

Quarterly Rewards are Home Depot gift cards that are **paid out to customers every 3 months** (in May, August, November and February). The amount on the gift card is based on how much a Pro Xtra member has spent in the previous 3 months and what tier level they are earning at. The more you spend, the more you'll earn towards your Quarterly Reward.

Quarterly Rewards Payout Periods

Quarterly Period	Payout Period
February 1 to April 30	First Week of May

How It Works

Quarterly Reward Calculation

Your gift card value is based on your quarterly spend and is dependent on the reward tier that you are in at the end of each quarter.

For example: The current reward period is February 1 – April 30. Your total spend over the last 12 months is \$12,000 (as of April 30) qualifying you for the gold tier. This means you would earn 2% of your quarterly spend back in rewards.

Reward Tier	Earn Rate	Quarterly Spend	Gift Card Value
Gold	2%	\$3,000	(\$3,000 x 2%) = \$60

Quarterly Rewards Periods

Gift cards will be issued once you reach a minimum of \$10 in rewards. Your current rewards balance – if less than \$10 – will carry forward to the next quarterly reward payout.

Quarterly Rewards Period	Gift Card Issued
February 1 – April 30	First Week of May
May 1 – July 30	First Week of August
August 1 – October 31	First Week of November
November 1 – January 31	First Week of February

Reward Tiers

Your reward tier is based on your total spend over the last 12 months from today and updates daily. Be sure to check your spend near the end of each quarter to see which tier you currently qualify for.

Tier	Last 12 Months Spend	Reward Issued
Silver	\$0 – \$9,999	Earn [PERCENT] of your quarterly spend back
Gold	\$10,000 – \$49,999	EXTRA Reward
Platinum	\$50,000 +	Earn an EXTRA 1% back on all purchases made with Home Depot Commercial Card
